Direct inquiries for Psychiatrists' services come to the hospital. These can be direct referrals or patient inquiries. Any Psychiatrist wanting to build a private practice with us is introduced to our broad network of key referrers and also given opportunity to accept new patients or consultation in a private setting, when we receive the inquiries and referrals.

New Psychiatrists starting private practice and/or inpatient work can expect an accelerated ramp up of their business through connection with our hospital.

Most of our Psychiatrists see inpatients in scheduled appointment times during the day for about 50% of their time, depending on their outpatient private practice load. This option and/or after hours inpatient reviews can be undertaken as consultation space is available after hours at the hospital.

We have a dedicated marketing team who undertake introduction initiatives, marketing and communication as a way of updating GPs and healthcare professionals around our specialist and key services.
